

# ClearSeal™

**COLOR:** Clear

- BASIC USES:**
- Primes uncoated masonry/concrete
  - Absorbs and binds slight chalkiness
  - Temporary water repellency

**PRODUCT DESCRIPTION:** This penetrating clear thin primer prepares porous non-painted masonry and concrete for sealing with Topps Seal® and other coatings. ClearSeal absorbs and bonds light surface oxidation and forms an initial seal beneath the surface. Prepares oxidized surfaces so they may be coated over with excellent adhesion. Applies at one gallon per 100 - 150 sq. feet. Coverage depends upon usage

- FEATURES:**
- High resin factor and no fillers
  - Strong bonding
  - Repels moisture - helps keep dew at surface
  - Quick moisture resistance in 1 hour

<b>WET MATERIAL</b> <i>Typical Product Characteristics:</i>	Viscosity	water thin
	Weight per gallon	7.0 - 7.6
	Solids	35%
	Flashpoint of solvent	104° F
	VOC	<550 g/l
	Dry to touch @ 77° F 50% RH	~ 1 hr
	Service Range	-40° - 140° F
